

Sales Productivity Tools

What sales tools should you be using in 2019? I researched the top sales productivity tools recommended by sales and marketing experts, and I found some old faithfuls and a couple of duplicates... and a few ones I had never heard of! Note: all recommendations and comments about the tool are the expert's, not mine.

- 6 HubSpot - You gain access to tools that boost every aspect of your inbound sales strategy.
- 7 LinkedIn Sales Solutions - With a free trial, you should give the Professional Edition of Sales Navigator a try.
- 8 InsideSales - My favorite is the email and web tracking tool to enhance blog post traffic tracking.
- 9 ToutApp - One of my favorite features is the ability to create a “pipeline playbook,” complete with all of the data that you and your team need to stay in touch with a contact throughout the sales process.
- 10 Yesware - With access to high level, actionable insights, you’ll never again wonder what you’re supposed to do with the data that you’ve collected.
- 11 Calendly - From sales calls to sales meetings, from interviews to demos, it has all of the features that you require.
- 12 Zoom - There are many video and web conferencing services to compare, but through my experience Zoom is one of the best in digital marketing sales tools.
- 13 ClinchPad - ClinchPad is an online CRM, built for small teams that crave big results.
- 14 Proposify - With this software, you can share beautifully created proposals with prospects in the cloud. In turn, you hope to close more deals in a more time efficient manner.
- 15 SalesLoft - This tool is built to help you “increase qualified demos & appointments.”
